

Get your API key from ML for Kids

1. Add some training examples (**Train**)
2. Train your model on the provided data (**Learn & Test**)
3. Get your API key from from **Make** > Python > API key

About Teacher **Projects** Worksheets Pretrained Stories Book Help Log Out

"sentiment analysis (5 examples)"

Train

Collect examples of what you want the computer to recognise

1

Train

Learn & Test

Use the examples to train the computer to recognise text

2

Learn & Test

Make

Use the machine learning model you've trained to make a game or app, in Scratch, Python, or EduBlocks

3

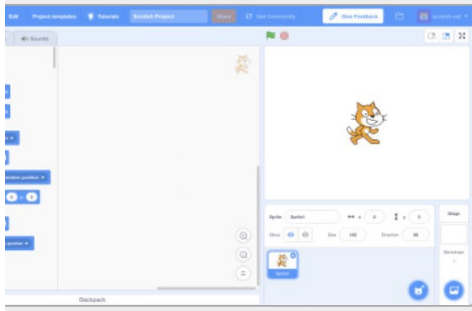

Make

Scratch 3

Use your machine learning model in Scratch

Scratch 3

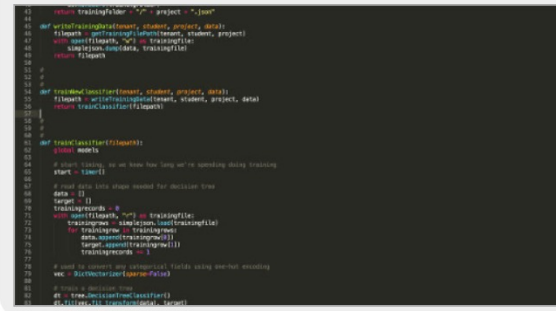

Python

Write Python code to use your machine learning model

Python

If you know how to use it, your API key for this project is:

8176a890-2757-11ef-832e-2136c40f26ea97269a44-4220-47e8-bffd-20181e5834cf

Treat it like a password and make sure that you keep it secret!
